## TUNNEL CONTINUAL WASHER

### FEATURES:

- Continue washer comprises prewashing, washing and cleaning washing three parts or chosen by customer.
- Whole heavy duty stainless steel made, good quality stainless steel water pump, washing pressure up to 3~10kg/cm<sup>2</sup>.
- Unique steam heater and temperature control in each part to insure ideal washing effect.
- Frequency control system insures freely change transfer chain speed for different requirements.
- Easy operation and saving consumption.
- Knocking down observed window at each side of tunnel, easy for maintenance.
- Imported nozzle unit, easy cleaning and adjustment.
- Filter system, easy cleaning.

### TECHNICAL DATA:

Capacity	500/h	Water Consumption	500L/h		
Speed	0.7-7m/min	Drive Power	0.37kw		
Passage Width	600mm	Passage Height	300mm		
Entrance Height	975mm				

#### PRE-RINSE UNIT

Pump Power	5.5kw	Capacity	400L/min	Pressure	3kg/cm <sup>2</sup>
------------	-------	----------	----------	----------	---------------------

#### MAINWASH UNIT

Pump Power	7.5kw	Capacity	200L/min	Pressure	10kg/cm <sup>2</sup>
------------	-------	----------	----------	----------	----------------------

#### AFTER RINSE UNIT

Pump Power	0.75kw	Capacity	8L/min	Pressure	5kg/cm <sup>2</sup>
Total Power	14.12kw				
Outside Dimension	5000×1700×1740mm
